Appl. No. 10/564,274 Amdt. dated April 16, 2008 Reply to Office Action of March 28, 2008

## **Amendments to the Claims**

This listing of the claims will replace all prior versions, and listings, of the claims in the application.

## **Listing of Claims**

- 1. (original) Xylitol-producing Candida tropicalis CJ-FID(KCTC10457BP).
- 2. (currently amended) An alginate bead prepared by <u>a method comprising</u> adding the *Candida tropicalis* <u>CJ-FID(KCTC10457BP)</u> to an aqueous alginic acid solution with stirring to obtain a uniform solution and dripping the uniform solution to a calcium salt.
  - 3. (original) A method for producing xylitol, comprising: preparing a xylitol-producing fermentation medium containing xylose and sucrose; inoculating the alginate bead of claim 2 onto the fermentation medium; and fermenting the fermentation medium in a fermenter.
- (original) The method of claim 3, further comprising:
   purifying with an activated charcoal column of a xylitol-containing fermentation culture
   produced by the fermentation;

purifying with an anion column of a xylitol solution produced the purification with the activated charcoal column; and

preparing a xylitol powder from a xylitol solution produced by the purification with an anion column.
